Dear Purchasing Manager,

I frequent your store and I'm sad to see that you do not carry Miller's Banana Pepper Sauce. Miller's is a truly unique condiment! Unlike other pepper sauces made with cheap pre-made bases, Miller's only uses vine-ripened peppers picked at the peak of freshness.

All grown up, the mature banana and habanero peppers are processed from scratch and mixed with a special blend of mustard seeds and spices to create a sweet and spicy sauce with superior flavor.

Miller's Banana Pepper Sauce is the perfect complement to everything from cheese and pretzels to burgers and barbecue. And since variety is the spice of life, they offer three flavors to suit every pepper lover's taste. Plus, all three are **GLUTEN-FREE** and **NON-GMO VERIFIED**.

I've attached an overview of their retail products for your convenience and hope you can find it in your heart (or stomach) to carry this delicious product.

With thanks,

A loyal customer
